Executive Committee decision on LTU BLM2x

The LTU crew broke a scull after 1 000 metres but was willing to continue racing with one rower in order to finish the race. This was at the period of lightning activity so the umpire ordered that, for the safety of the rowers and other personnel on the water, they be taken off the water and away from the exposure to lightning. The Executive Committee has decided that, due to the circumstances and their willingness to complete the race, they will be allowed to continue in the regatta as the last placed crew in their heat. They will proceed to the repechage.
