**Executive Committee decision on GEO BLM1x**

Before 1000 metres, the GEO sculler suffered an equipment failure. The umpire decided that even if the rower could have slowly completed the race there was not sufficient time as the next race was about to start. The umpire therefore decided that the rower should be taken off water. The Executive Committee has decided that he will be allowed to continue the regatta as the last placed crew in his heat subject to rowing the 2000 metre course at race pace this afternoon at 17:50 hrs in order to simulate the equivalent fatigue as the other competitors. He will then proceed to the repechage.
